Checklist for Full-Time Missionary Recommendation

To the Bishop or Branch President

☐ Review the Church Handbook of Instructions, Book 1, pages 79–83, and the First Presidency letter of 12 December 2000 for information on qualifications, terms of service, requirements for special clearance, and other instructions on calling missionaries.

☐ The missionary recommendation packet should be submitted to the Missionary Department not more than 90 days before the candidate’s availability date. The date given in the “Date available” field should not be earlier than the birthday when the missionary reaches the minimum age for service. Normally about two to four months are allowed between the issuing of the call and the beginning of the mission.

☐ If the candidate has been living away from home, the home ward bishop and the away-from-home bishop must confer regarding worthiness and the procedures for submitting the recommendation form (see the Church Handbook of Instructions, Book 1, p. 83).

☐ Conduct a thorough, searching interview with the candidate to determine worthiness, qualifications, and the individual’s physical and emotional capability to serve.

☐ Give the candidate the missionary recommendation packet.

☐ Review these forms after the candidate completes them. Ensure that any serious concerns are resolved, including completion of recommended tests or treatment, before the forms are submitted. Explain any concerns and actions taken either on the Priesthood Leaders’ Comments and Suggestions form (p. 2) or, if confidential, in a separate letter.

☐ Conduct a final interview with the candidate before submitting the papers. Make sure that all requested information has been provided, and fill in the “Unit Information” section and the candidate’s membership file number (p. 4). Discuss with the candidate important information requested on the form, such as visa or citizenship documentation or information about special medical problems, diets, or medications.

☐ Conduct a final interview with the candidate before submitting the papers. Make sure that all requested information has been provided, and fill in the “Unit Information” section and the candidate’s membership file number (p. 4). Discuss with the candidate important information requested on the form, such as visa or citizenship documentation or information about special medical problems, diets, or medications.

☐ Ensure that after the contribution from the missionary and family, the ward missionary fund can meet the financial obligation for this missionary.

☐ For countries where supplemental financial support from the General Missionary Fund is authorized: If the candidate cannot be supported fully from personal, family, ward, or stake funds, complete a Request for Supplemental Financial Assistance for Full-Time Missionary form (31964) and send it to the Area Presidency with the missionary recommendation packet. Do not request assistance from the General Missionary Fund until the missionary, the family, and the ward and stake have committed themselves to provide all the financial support they can.

☐ On the Priesthood Leaders’ Comments and Suggestions form (p. 2), provide pertinent information on the candidate’s qualifications and abilities. Add comments on the candidate’s experience, leadership capability, potential, interests, talents, or limitations that should be considered in determining the mission assignment.

☐ The picture that accompanies the recommendation form should be current and should show the candidate dressed and groomed according to missionary standards.

☐ Sign the Missionary Recommendation form (pp. 3–4), and send all required forms to the stake president. When you sign this form, you are stating that in your opinion this individual is worthy to serve a mission. You are also confirming that you have reviewed the medical information and conducted a thorough personal interview, which has convinced you that this person is physically and emotionally able to serve a mission.

☐ Do not recommend members who are in debt and have not made definite arrangements to meet their financial obligations.

To the Stake or Mission President

☐ Review the Church Handbook of Instructions, Book 1, pages 79–83, and the First Presidency letter of 12 December 2000 for information on qualifications, terms of service, requirements for special clearance, and other instructions on calling missionaries.

☐ Conduct a thorough, searching interview.

☐ Add your comments on the Priesthood Leaders’ Comments and Suggestions form (p. 2).

☐ Make sure that all concerns have been resolved or adequately explained either on the Priesthood Leaders’ Comments and Suggestions form or, if confidential, in a separate letter.

☐ Review all forms for accuracy and completeness.

☐ Sign the Missionary Recommendation form, and send all forms to the Missionary Department (50 East North Temple Street, Floor 3WW, Salt Lake City, UT 84150-5400). When you sign this form, you are stating that in your opinion this individual is worthy to serve a mission. You are also confirming that you have reviewed the medical information and conducted a thorough personal interview, which has convinced you that this person is physically and emotionally able to serve a mission.

☐ Have your stake clerk enter the information from these forms into the computerized missionary recommendation program. Make a copy of the completed forms for your records. Mail the diskette with the recommendation forms.

Information for Parents of Young Missionaries

1. Missionaries represent the Church, serve all over the world, and are exposed to many physical, environmental, social, and emotional stressors, often in areas where there is minimal medical care. The Church is greatly concerned about the health and safety of the missionaries; therefore, thorough medical and dental examinations are essential before a missionary enters the mission field.

2. Review the completed forms and add any pertinent information.

3. Please make sure that the instructions under item 9 above are carried out and that clarifying statements are submitted with the Personal Health History for Missionary Candidate form. Failure to do so may delay the call unnecessarily.

4. Encourage your missionary to continue to take any prescribed medications. Problems may arise when missionary candidates stop taking medication because they believe that being on medication might affect the missionary assignment they receive.

5. The purpose of a careful medical evaluation is to ensure that missionaries can handle the rigors of missionary work and receive assignments in which they can succeed. It is unfortunate when a missionary must return home early because of problems that could have been avoided or stabilized before the mission.

6. Pay particular attention to item 11 above. This will help avoid unnecessary problems and expenses in the MTC or the mission field.

7. If you have private insurance coverage for the missionary, do not discontinue it. Please note it on the Missionary Personal Insurance Information form with pertinent data.

8. During the mission, a missionary’s family must bear the costs of caring for preexisting medical conditions. A preexisting condition is any chronic, congenital, or medical condition with signs or symptoms, a diagnosis, or treatment within the two years before entering the mission field, regardless of whether the symptoms are present when the missionary enters the field.

Instructions for Physicians Evaluating Missionary Candidates

Missionaries for The Church of Jesus Christ of Latter-day Saints serve in various environments and cultures throughout the world. They are normally expected to engage in missionary activities many hours per day, including walking many miles a day six days a week. The rigors of a mission usually exacerbate any prior difficulties. Please use the following guidelines in examining the missionary candidate:

1. The Physician’s Health Evaluation form must be signed by a medical doctor (MD) or doctor of osteopathy (DO). If the examination is done by a physician’s assistant (PA) or nurse practitioner (NP), the supervising physician must verify the findings and review and countersign the form. An examination by any other practitioner is not acceptable.

2. Please perform a thorough physical examination to ensure that missionaries receive assignments in which they can succeed. It is unfortunate when a missionary must return home early because of problems that could have been avoided or stabilized before the mission.

3. Correct any problems such as plantar warts, flat feet, chronic headaches, or inguinal hernia before the missionary candidate leaves. Explain to the missionary any problems that do not need correction, such as a deviated nasal septum, varicocele, pilonidal disease, and so on, in case a physician in his or her mission insists that such a condition must be surgically corrected.

4. Stabilize chronic problems such as asthma, diabetes, seizures, emotional disorders, irritable bowel, endometriosis, and so on. Carefully instruct the missionary on the treatment for these problems and explain personal care under diverse circumstances. Also explain the importance of continuing to take any prescribed medications.

5. Do not sign the Physician’s Health Evaluation form without reviewing the Personal Health History for Missionary Candidate form with the candidate. Please comment on things that are pertinent to the candidate’s ability to function.

6. When a major illness, operation, injury, hospitalization, or prolonged treatment is mentioned, please obtain a summary report of the incident from the professional who treated the case. This report should accompany the missionary’s application.

7. Obtain necessary consultations to clarify the missionary’s ability to function in the mission field as well as his or her current physical and emotional status where advisable.

8. Complete all specified laboratory tests. Everyone, including those who have had BCG vaccine or a chest X ray, should have a PPD skin test. Only those already known to be positive are exempted.

9. Please mark the appropriate box indicating the candidate’s overall ability to function in the mission field on the Missionary Fitness Report: Overall Assessment of Functional Ability form.

To the missionary candidate:

- Begin early. Do not wait until the last minute to have the dental examination and necessary treatment. If everything is not in order, your call may be delayed.
- All dental work, including orthodontic work, should be completed before submitting the missionary recommendation packet to your bishop or branch president.
- Your dentist will retain this form and will not send it to your bishop or branch president until all needed care and treatment has been completed. Please give your dentist a stamped envelope addressed to your bishop or branch president.

To the dentist:

- Please type or print clearly, using black ink.
- As you evaluate the candidate’s dental condition, please be aware that he or she may be assigned to serve for two years in an area of the world with limited or inadequate dental care. Please complete all necessary dental work before submitting this report to the bishop or branch president.
- Mail the completed report to the missionary candidate’s bishop or branch president in the envelope provided.
All missionaries should complete the information in sections 1 and 2. Missionaries under the age of 40 should complete section 3. Couples and sisters age 40 and over must complete section 4. The missionary should review this information with the bishop or branch president, who should submit this completed form with the Missionary Recommendation form to the stake president.
